Radhe Group Presents Vitagreen :-

Vitagreen is set to bring a health revolution in food industry by integrating the most modern technology and manufacturing practices to make healthy living a lot easier. Years of research and innovation made us introduce the right mix of technology, manpower, raw materials and new product development leading us to the green concept for food industry.

Concept behind 77 GREEN :-

Although, we can't list all the 77 reasons of choosing 77 GREEN as our brand name, here we present the brief concept behind it. The number 7 holds an important place in numerology. That's the simple reason, why there are 7 days in a week where we cook and nourish ourselves right from 7 in the morning to 7 in the evening. Also, akin to this 7 stands for 7 colors in the rainbow, 7 chakras in human body, 7 musical notes and 7 wonders of the world as well. Green has the potential to reinvent the world and reverse economic woes, requiring - and justifying - the kind of breakthrough thinking that can transform society, business, eve retail experiences.
